HOLISTIC EXOBIOTIC[®] BIOSTIMULATORS MADE IN SWITZERLAND

WELCOME TO THE FOREFRONT OF

Dermatological Innovation

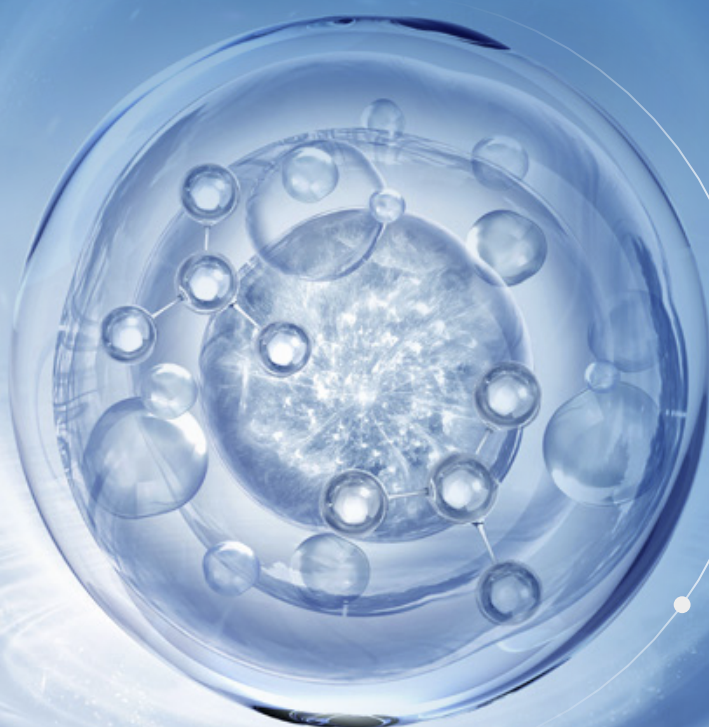

At Renvix® Science, we target the root cause of aging and hair loss, at the same time as boosting the **skin microbiome**.

Our Exclusive and patented Exobiotic® technology extracts the Extracellular Vesicles (EVs) from probiotic bacteria.

Scientifically proven, EVs derived from Lactic acid bacteria stimulate the proliferation of human skin fibroblasts, hair follicle cells, and the production of collagen & elastin, while preventing from autoimmune skin diseases.
